

# MULTI CLEANER

Cleanup and service operations at sea, in rivers and in major harbors

MultiCleaners are true multipurpose ships, combining a workboat features with a cleanup ship.

Built in aluminum, following international standards and classification rules, they are can be assigned various missions.

In case of oil spills they are immediately ready to collect and this even in heavy seas and bad weather. This feat is possible thanks to their patented self floating arms.

## APPLICATIONS

- Hydrocarbons
- Solid waste
- Firefighting
- Crane lifting
- Towing
- Black/grey water collecting
- Maritime operations
- Coast/fishing surveillance
- Merchandise carrying
- Personnel transportation

# MULTI CLEANER

Vessels from 10 to 20 m

## MultiCleaner 100

Barge type  
Available in plant removing configuration

Length	10 m
Solid waste	8 tons
Liquid waste	5 m <sup>3</sup>
Suction capacity	2 200 m <sup>3</sup> /h

## MultiCleaner 117

Length	12,1 m
Solid waste	2,5 tons
Liquid waste	7 m <sup>3</sup>
Suction capacity	2 700 m <sup>3</sup> /h

## MultiCleaner 128

Option : - ORS class by Bureau Veritas  
- keelcooling

Length	13,50 m
Solid waste	5 tons
Liquid waste	8 m <sup>3</sup>
Suction capacity	3 000 m <sup>3</sup> /h

## MultiCleaner 200

Barge type  
Available in plant removing configuration

Length	20 m
Solid waste	50 tons
Liquid waste	20 m <sup>3</sup>
Suction capacity	3 000 m <sup>3</sup> /h
